

Benefit from a great network of graduates

The Orange Graduate Program has been around for 20 years and has over 500 alumni

I'm currently project manager for a CyberSOC – which is like the brain of cybersecurity operations – where I'm connected to both the technical team and the customer.

Till, from Germany, 2021 graduate

Working with the JB Thierry organization – which offers digital support for children with autism and multiple disabilities – I learned how to execute an idea from beginning to end.

Martin, 2016 graduate

Check-list

- ✓ Masters' degree graduate of 2020, 2021 or 2022

Different tech pathways: AI, data, SDN, cybersecurity, dev, cloud, and more

I was looking for a position where I could be both analytical and creative, so the role of Creative data analyst was opened up for me. This is a very accommodating program that caters to our needs.

Loredana, 2021 graduate

Explore BtoB or BtoC

I was the manager of the biggest Orange store in western France. Next step: working with OBS in Moscow!

Arthur, 2019 graduate

**4 years
experiencing
different
development
opportunities**

The opportunity to join a start-up

After my role in HR communications through the Orange Graduate Program, I worked for 3 months in a startup sales role.

Gabrielle, from France, 2018 graduate

The chance to live and work in a multicultural and international environment

Working in Spain while discovering a new culture and environment truly excited me.

Alexandra, 2008 graduate

Be part of an organization supported by Orange Foundation

I joined Solidarnum, an organization in Reunion, where I worked on a FabLab promoting digital inclusion for those in need.

Olivier, 2019 graduate

Professional and personal development
